Parking Signs

- The most common sign produced is the 12" X 18" Parking Sign.
- Signs can vary from standard parking signs to personalized signs for any situation.
- Pheasantland uses quality 3M products on aluminum metal with rounded corners for safety, and punch standard holes for mounting.
- Pheasantland can make custom signs with your own personal message and color scheme

Customized Indoor & Outdoor Signs

This logo and layout was made in our facilities and approved by the customer.

- Pheasantland Industries is not limited to standard sign and layout designs.
- Signs can be sized and designed to your specifications.
- Signs can be made for both indoor and outdoor use.
- Pheasantland Industries will work with you to create your own custom and personalized signs.

Street Signs

24" x 6" Signs

- Street signs are used in urban and rural areas.
- Pheasantland Industries uses quality 3M reflective sheeting that meets federal standards for reflectivity.
- Street Signs feature the same image on both sides of the sign.

3" X 2 1/4"
Static Cling or adhesive
Start Price: \$0.34
Discounts for Quantity

- Pheasantland Industries can print these on static cling or vinyl adhesive materials.
- Static cling is a plastic that will stick to glass or any smooth surface without an adhesive.
- The Static Cling material can be moved easily and cleanly to new locations by pulling it off and placing it somewhere new.
- They can be printed on either type of material and can be made reversed for use on the inside of a window facing out.

Law Enforcement Decals

- This decal is just one example of a screen printed decal that has been produced in the past.
- Designs can be customized to fit the customer's specifications in both size and layout.
- Decals can be placed on standard signs, magnetic material, vinyl, adhesives, or static cling.

Fire Department Decals

Total size: 14 3/4" X 19"

Printed on white reflective adhesive

- The Deadwood Fire Department sent in a patch and a rough draft of how they wanted their final product to look.
- From their suggestions, Pheasantland created this decal for use on both their new and existing fire trucks.
- Pheasantland will work with you through the design process to ensure a satisfactory design.

Emergency Management

- Lawrence County Emergency Management gave Pheasantland Industries an idea of a design they wanted to have created.
- Pheasantland created this design and received their approval for production.
- Pheasantland will work with you to create a decal that you will be satisfied with.

Organizational Decals

This is one of many organizational decals Pheasantland Industries receives to be placed on license plates.

- Customers can simply send in their designs through email, or they can bring in a design where it can be scanned and reproduced to fit your specifications.
- Organizational decals can be printed on a variety of surfaces including metal, magnets, adhesives, static clings, etc...

Color Fades

End product sizes were: 10" and 8"

- Multiple color fades are also an option for customers.
- Customers can choose from a wide variety of colors and fades to get the satisfactory design they desire before anything is produced.
- Pheasantland Industries printed two sizes of this decal in particular and applied it to larger signs.
