

What's Happening

Our shops recently updated to Adobe CS6 software, meaning now our design options are endless. We will happily work with you to create a design for any products you need!

Upcoming Conferences

Sioux Falls, SD

July 2013 Newsletter

Thinking Ahead for Back To School

As students start to prepare for another school year, so should you. Pheasantland has everything you need for a successful school year.

Including, window clings for fund raisers or just for fun!

We can use your school logo or work with you to create the perfect design. Also it doesn't hurt to plan ahead and have books rebounded for the next school semester.

*If you would like to pick up your rebounded books at the conference please let us know in advance.

Director's Note,

We are so fortunate to be able to celebrate the 4th of July and all that it stands for. Please take the time to really appreciate ALL of our freedoms and please keep in mind the cost of those freedoms. With this in mind, I know fireworks will be a big part of many celebrations so please be very careful. Be aware of the dangers of fireworks and take appropriate precaution, such as safety glasses, stay away from open flames, be aware of dry grassy areas as well as buildings. Have a fire extinguisher nearby, "just in case". Warm weather, stay hydrated and avoid any activity with excessive drinking. Be safe and have a Happy 4th of July.

Darold Diede

Product Spotlight

Custom safety glass holders can easily come in handy in the classroom. If you need to hold five pairs of glasses or fifty we have you covered. We can also line the inside with fleece to keep the glasses from getting scratched or damaged. We can design holders with a weighted curtain cover (as shown) or with cabinet doors. Contact John Story in the Machine Shop to learn more information about this awesome product!
