Office of Primary Responsibility:	Parole Board Office

II Purpose:

To establish guidelines for Parole Agents and the Parole Board on the recommendation and granting of the return of street time, a partial early discharge, and/or an Early Final Discharges to offenders on community supervision. Through the application of these early discharge standards and procedures, offenders on community supervision representing a lower risk to public safety, having followed the rules of the Department of Corrections and having followed the conditions of their community supervision agreement, may be afforded an opportunity to be considered for the return of street time, a partial early discharge and/or an Early Final Discharge from community supervision.

III Definitions:

Early Final Discharge

As authorized by SDCL 24-5-2, 24-5-7, and 24-15A-8, the Board of Pardons and Paroles may grant an Early Final Discharge to an offender on community supervision, including those serving a suspended sentence under supervision of the board.

Neither this policy, the sections of SDCL, nor its application may be the basis for establishing a constitutionally protected liberty, property, or due process interest in any inmate.

Street Time

New System Offenders – All time spent on supervision, including time spent on absconder status and suspended sentence will be considered street time (see SDCL 24-15A-28).

Old System Offenders – All time spent serving the suspended portion of the sentence will be considered street time.

As it applies to this policy only, street time will only encompass any time the Parole Board has previously denied the credit of or “taken” at prior revocations on current admissions.

Partial Early Discharge

A length of time to be credited to an offender’s active sentence which would reduce the actual time an offender on community supervision must serve. Any time credited to the offender under a partial early discharge may be rescinded by the Parole Board during any subsequent parole revocation actions.

The Board, being satisfied that an earned discharge would *not* be in the best interest of society and the offender, attests it is hereby ORDERED that the application for earned discharge from supervision for _____ is: **DENIED.**

Compelling Reasons for Board Denial of Early Discharge from Community Supervision:

- The Board is not satisfied that society will be protected if the parolee would be discharged early.
- The Board is not satisfied that the parolee has secured suitable employment, other beneficial occupation of his/her time, or suitable place to live.
- The Board is not satisfied, given the nature and circumstances of the offense for which the parolee was convicted that he/she has been confined and supervised in the community for sufficient length of time.
- The Board is not satisfied, given the parolee's attitude, character, capabilities and habits, as exhibited by his/her conduct in the institution, or in the community, or both, that he/she has accomplished rehabilitation.
- The Board is not satisfied, given the nature and circumstances of previous probation or parole history, that the parolee has recognized his/her problems and has made sufficient efforts towards self-improvement.
- The Board is not satisfied, given a review of the standards set forth in SDCL 24-13-7, as amended, that the parolee is willing to lead a law-abiding life without harm to society.
