II Policy:

Inmate work assignments will be made on the basis of rational, objective criteria, taking into consideration inmate and staff safety, level of risk assigned to the work assignment, and the security of the facility. This policy replaces the Job Risk Classification Memorandum issued by Warden Weber dated February 21, 2012.

III Definitions:

Inmate Work Assignment:

A work assignment assigned to an inmate which contributes to the day-to-day operation of the institution (building maintenance, food service, grounds, janitorial/housekeeping duties, snow removal, etc.), assignment to an industry operating within the facility under the Prison Industry Enhancement Certification Program (PIECP), Springfield Vocational Industries, South Dakota Housing and Pheasantland Industries.

IV Procedure:

1. Applicability:

- A. Each inmate who is physically and mentally able, may be assigned to institutional work (ACA 4-4448). Inmates are eligible for placement in work assignments based on risk.

2. Work Assignment Assessment:

- A. Each facility (excluding Community Work Centers), will utilize the *Inmate Work Assignment Risk Assessment* ([Attachment 1](#)) to assess the level of risk associated with each inmate work assignment at the facility. Each work assignment must be assessed at least once per calendar year, or sooner, if the risk elements of the assignment change, i.e. tools, supervision, access/movement within the facility, etc.
 1. Inmate work assignments at each facility will be documented within the High Risk folder located on the DOC M-drive and in COMS.
 2. The Deputy Warden or designee is responsible for updating the list of inmate work assignments and assessment score assigned to for each inmate work assignment as changes occur.

3. All newly created inmate work assignments must have an assessment completed prior to inmates being assigned to the work assignment.
 4. The Deputy Warden will approve all final scores assigned to an inmate work assignment and ensure the annual work assignment assessment process is completed.
- B. Each inmate work assignment will be assigned a risk level based on the score. The levels of risk are:
1. High Risk- Score 40-46 points.
 2. Medium Risk-Score 22-39 points.
 3. Low Risk-Score 22 points or less.

3. Assignment of Inmates to Work Assignments:

- A. A list of inmates eligible for assignment to a High Risk work assignment is available in COMS.
- B. Inmates identified as High Risk may not be assigned to a work assignment assessed as "High Risk". High Risk inmates may be assigned to "Medium Risk" or "Low Risk" work assignments.
- C. Inmates NOT identified as "High Risk" may be assigned to "High Risk", "Medium Risk" or "Low Risk" work assignments.

4. High Risk Inmates:

- A. Inmates meeting one or more of the following criteria shall be identified as "High Risk" for the purposes of work assignments:
1. Inmates currently classified as maximum custody (only at SDWP and SDSP).
