custom screen printing

Here at Pheasantland Industries we pride ourselves on the quality of our work. The Garment and Screen Shop offers custom screen-printed products, such as t-shirts, sweatshirts, and can coolers, as well as a full line of inmate clothing, including the black-and-white pieces popular with county jails. It also supplies many South Dakota counties, communities, and the state DOT with ANSI Class 2-approved safety garments for their employees.

As with all of the shops of Pheasantland Industries, our products and services are available to state and local entities, as well as schools, churches and non-profit organizations.

## Meet Dustin PISCHEL

"I've worked for DOC for the past 15 years. Before taking my position with Pheasantland Industries in December 2015, I was a senior correctional officer and ran the library at the Mike Durfee State Prison. Our shop does a remarkable job with the wide range of products we have available."
