December 2009

Governor M. Michael Rounds
Chief Justice David E. Gilbertson
Members of the South Dakota Senate
Members of the South Dakota House of Representatives

Dear Governor Rounds, Chief Justice Gilbertson and Members of the South Dakota Senate and House of Representatives:

It is with great pleasure that I present to you the *Council of Juvenile Services Fiscal Year 2009 Annual Report*.

The Council of Juvenile Services oversees the State's participation in the Juvenile Justice and Delinquency Prevention Act Formula Grants Program and is required to make an annual report to the Governor and Legislature on the State's progress in meeting the requirements of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended. The Council is also responsible, pursuant to SDCL 1-15-30 (8), for making an annual report to the Governor, Chief Justice and the Legislature on the status of Children in Need of Supervision. This document serves to meet both of these reporting requirements.

The Council of Juvenile Services has worked diligently over the past six years to enhance juvenile services in the state. The following pages of the Annual Report is a condensed summary of the accomplishments over the past year, but I believe you will be proud of the critical and relevant work that has been done in our State since South Dakota came into compliance with the Act in 2003. Furthermore, federal fiscal year 2009 Formula Grant, Juvenile Accountability Block Grant, and Title V Delinquency Prevention Grant applications were submitted and approved by the Office of Juvenile Justice and Delinquency Prevention. These three grants will provide over \$966,000 for juvenile justice planning and projects in South Dakota for the next few years.

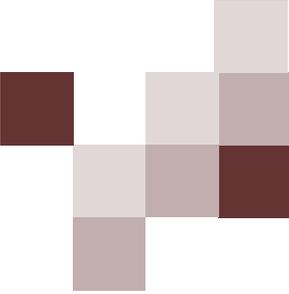

I want to thank you all for your support and I look forward to working with you on behalf of South Dakota's children.

Very Best Regards,

Carol Twedt, Chairperson

COUNCIL OF JUVENILE SERVICES

The Council of Juvenile Services (Council) is the state advisory group for the State's participation in the Formula Grants Program of the Juvenile Justice and Delinquency Prevention Act (the Act). The Department of Corrections (DOC) is the designated state agency to receive and expend Formula Grant funds. The DOC provides staff support to the Council and its committees. State Fiscal Year 2009 represents the sixth year of the State's renewed participation in the Formula Grants Program.

SDCL 1-15-30, as amended by Senate Bill 8 in the 2003 Legislative Session, outlines the responsibilities of the Council of Juvenile Services.

- (1) In conjunction with the secretary of the Department of Corrections, establish policy on how the formula grants program of the Juvenile Justice and Delinquency Prevention Act is to be administered in South Dakota;
- (2) Approve the state plan, and any modifications thereto, required by 223(a) of the Act prior to submission to the Office of Juvenile Justice and Delinquency Prevention;
- (3) Submit annual recommendations to the Governor and Legislature concerning the functions of the Council of Juvenile Services and the status of the state's compliance with the Act;
- (4) Approve or disapprove grant applications and other funding requests submitted to the Department of Corrections under § § 1-15-27 to 1-15-31, inclusive, and assist with monitoring grants and other fund awards;
- (5) Assist the Department of Corrections in monitoring the state's compliance with the Act;
- (6) Study the coordination of the various juvenile intervention, prevention, treatment, and rehabilitation programs;
- (7) Study effective juvenile sentencing, adjudication, and diversion policies and provisions;
- (8) Make a special study of and make an annual report to the Governor, the Unified Judicial System, and the Legislature by June thirtieth of each year, concerning the appropriate administration of and provision for children in need of supervision in this state;
- (9) Contact and seek regular input from juveniles currently under the jurisdiction of the juvenile justice system; and
- (10) Perform other such activities as determined by the Governor, the Secretary of the Department of Corrections, or the Council of Juvenile Services.

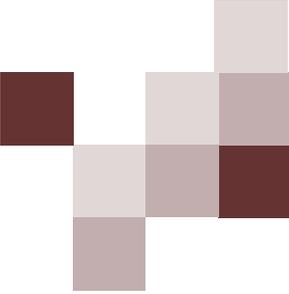

COUNCIL OF JUVENILE SERVICES

CJS VALUES

Values

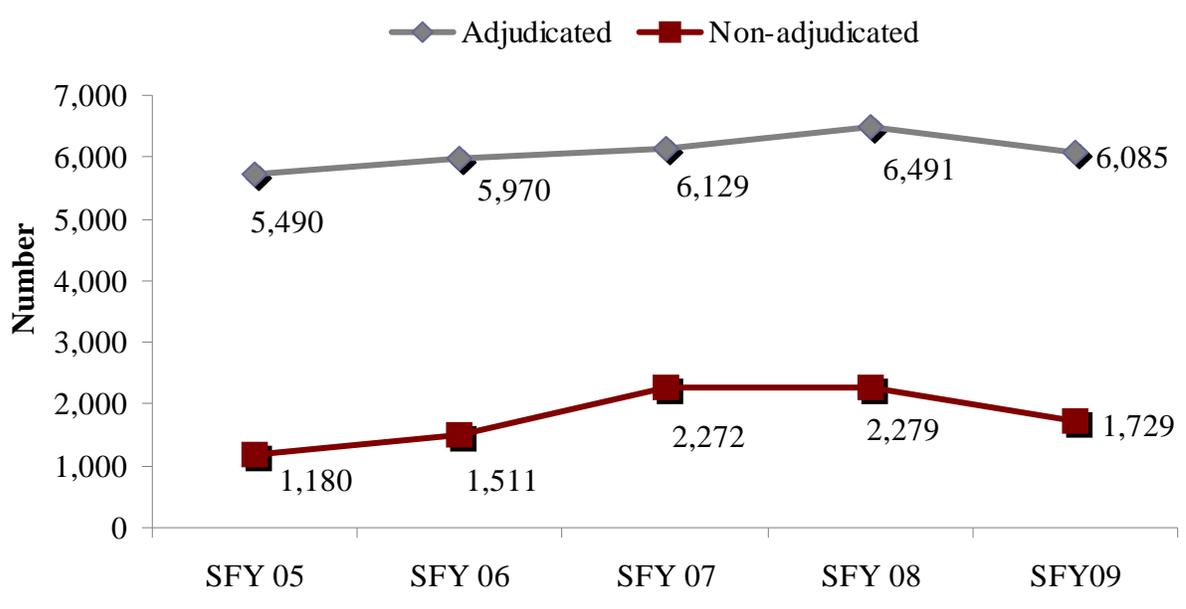

The Council of Juvenile Services has developed and adopted the following values to guide their work in assisting the state in meeting the requirements of the Formula Grants program and in making improvements to South Dakota's juvenile justice system:

- *Children and adolescents shall receive developmentally and culturally appropriate services.*
- *All children will have the same access to needed services – regardless of income, geography, race, or jurisdiction.*
- *Safety – of the community and of the child.*
- *Place youth in the least restrictive community-based environment available and provide services that are evidence-based.*
- *Accountability – of the child, parents, and the juvenile justice system.*
- *Effective early intervention services that are evidence-based.*
- *Family-based, family-centered services.*
- *Equal justice regardless of race – address Disproportionate Minority Contact.*
- *Early and effective legal representation, including an assessment of competence and a timely and just legal process.*

CHILDREN IN THE JUVENILE JUSTICE SYSTEM

South Dakota's juvenile justice system impacts thousands of youth and their families on an annual basis. The following table provides a summary of juvenile justice numbers in our state for adjudicated youth by state fiscal year, provided by the UJS and referenced in the 2009 South Dakota Kids Count Factbook:

Juvenile adjudicated or non-adjudicated actions by state fiscal year (SFY)

Definition of terms:

Adjudicated—a juvenile found to have committed an offense based on allegations within a CHINS or a delinquent petition.

Non-adjudicated—a juvenile found not to have committed an offense based on allegations within a CHINS or a delinquent petition.

Source: The 2003-2009 South Dakota Kids Count publications (University of South Dakota, Business Research Bureau) is the source of the data, (with the exception of DOC Commitments) in the above table.

* DOC commitment data provided by the Department of Corrections. Data only accounts for the number of new juveniles that receive a disposition of commitment to DOC.

** Starting with FY2006 a new information system was implemented, which provided unduplicated counts.

The significant number of children in the court system and the high number of commitments to the DOC emphasize the importance of continued leadership and funding to develop community based alternatives to detention, early intervention and prevention efforts.

CJS PROBLEM STATEMENTS

The Council identified the following problems to be addressed through FY2009 Formula Grant funds and activities:

1. Monitoring and maintaining compliance with deinstitutionalization of status offenders, jail removal, and sight and sound separation requirements of the Act, as amended, is critical for continued juvenile justice system improvement.
2. Disproportionate Minority Contact – minority youth, primarily Native American youth, are over-represented at most stages of South Dakota’s juvenile justice system.
3. The Native American Tribal juvenile justice systems have a critical lack of basic resources to address the needs of youth coming before the Tribal courts, thus compromising due process and outcomes.
4. Because of the dramatic increase of youth coming into the courts, there is a significant need for expansion of community-based prevention and early intervention programs and services to include:
 - Prevention
 - Effective Early Intervention
 - Children and Family Services – Child Abuse and Neglect
 - Mental Health Services
 - Developmental Disabilities Services
 - Services for Children in Need of Supervision
 - Services/Interventions Addressing Prevalence of Substance Abuse Among Youth in the Juvenile Justice System
 - Education
 - Fetal Alcohol Syndrome Disorder
5. Because South Dakota has one of the highest incarceration rates of detention per capita, there is a need to develop alternatives to detention, commitment to the Department of Corrections, or out-of-home placement for:
 - Young Offenders
 - CHINS
 - Special Needs Offenders
 - Low-risk Delinquent Offenders

COMPLIANCE WITH CORE REQUIREMENTS

Federal Requirements

The Juvenile Justice and Delinquency Prevention Act, as amended, establishes four core protections with which participating states and territories must comply in order to receive grants under the Act:

(1) *Deinstitutionalization of Status Offenders (DSO)*

Refers to the removal of status offenders and non offenders from secure juvenile detention and correctional facilities, jails and lockups for adult offenders.

(2) *Sight and Sound Separation*

Refers to providing separation between adults and juveniles in secure settings.

(3) *Jail Removal*

Refers to the removal of juveniles from adult jails and lockups.

(4) *Disproportionate Minority Contact (DMC)*

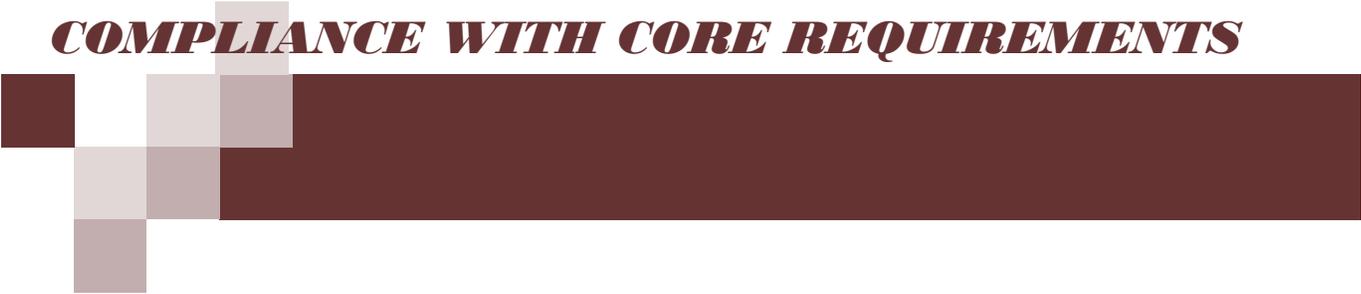

Refers to the reduction of minority over-representation where it exists within the juvenile justice system.

To be eligible to receive Formula Grant funds and Title V (delinquency prevention) Grant funds, states must:

- designate a State agency to prepare and administer the State's comprehensive three-year juvenile justice and delinquency prevention plan;
- establish a state advisory group, appointed by the Chief Executive, to provide policy direction and participate in the preparation and administration of the Formula Grants Program plan; and
- commit to achieve and maintain compliance with the four core requirements of the Act.

South Dakota is currently in compliance with all core requirements of the Act.

COMPLIANCE WITH CORE REQUIREMENTS

Facilities Monitored & Method of Monitoring

A compliance monitoring system has been developed and implemented to monitor the State's compliance with the Jail Removal, Sight and Sound Separation, and Deinstitutionalization requirements of the Formula Grants Program.

All facilities in the state have been classified according to federal definitions. During the fiscal year, site visits were conducted to verify facility classifications, to collect and verify data, to identify if violations of the Formula Grants Program requirements are occurring, and to provide technical assistance and training on the Act's requirements.

Admission and release data is collected and analyzed throughout the year and reported annually to the Office of Juvenile Justice and Delinquency Prevention (OJJDP) for secure locations including jails, regional juvenile detention centers, collocated juvenile detention centers, secure state correctional facilities, and secure private facilities.

Compliance Summary

In 2002, there were 415 incidents that violated the federal requirements of DSO, Jail Removal, and Sight & Sound Separation. In 2003, South Dakota began working toward compliance with the JJDP Act and saw a major decrease in the number of violations to 50 incidents. Since this time, South Dakota has continued to keep the number of violations low as reflected in the chart on the following page.

In 2008, South Dakota's DSO violation rate was 3.05/100,000 youth, which places the State in full compliance with the de minimis exception rate. A DSO violation rate of 29.5 or higher would mean that the State would be noncompliant with the DSO requirement. The jail removal violation rate of 2.03/100,000 youth means the State is eligible for numerical de minimis compliance if an acceptable plan is developed to eliminate noncompliant incidences. There were not any separation violations in 2008; therefore, South Dakota is eligible for a finding of compliance.

COMPLIANCE WITH CORE REQUIREMENTS

The following table displays a history (number and rate) of the violations for the requirements of DSO, Jail Removal, and Separation since South Dakota renewed participation in the Act:

** Rate per 100,000 youth under the age of 18. Juvenile Population as per OJJDP.				

COMPLIANCE WITH CORE REQUIREMENTS

Based on the small number of violations and the fact that the violations are isolated incidents that do not constitute an ongoing pattern, it is anticipated that the OJJDP will continue to find the State of South Dakota in compliance with the Act requirements and therefore, eligible to receive continued funding.

Compliance Programming— Reimbursement Program

Meeting the temporary custody needs of juveniles consistent with the Act can be a burden on county governments. The Council of Juvenile Services authorized the development of a reimbursement system utilizing Formula Grant funds to provide financial support to counties. During Fiscal Year 2005, a reimbursement system was implemented that provided financial support to counties or arresting entities that lack appropriate temporary custody options for youth. Services eligible for financial assistance include detention, shelter care, attendant care, transportation, electronic monitoring, and training.

The following chart outlines the expenditures of the reimbursement program since South Dakota renewed compliance with the Act:

Period	Secure Detainment	Non-secure Detainment	Electronic Monitoring	Transportation	Total
FY2005	\$66,255.00	\$84,198.75	\$74,855.21	\$61,273.49	\$286,582.45
FY2006	\$50,455.00	\$61,983.75	\$57,294.83	\$41,089.69	\$210,823.27

FY2008	\$85,080.00	\$99,130.83	\$104,870.97	\$56,789.53	\$345,871.33
FY2009	\$79,720.00	\$89,575.04	\$84,465.51	\$61,859.03	\$315,619.58

During Fiscal Year 2009, a total of \$315,619.58 was reimbursed to 23 local governments for services consistent with the reimbursement program. The table on the following page provides a summary of the entities receiving reimbursement and the program services accessed to provide services to 1,530 juveniles in FY2009.

DISPROPORTIONATE MINORITY CONTACT

Disproportionate Minority Contact Committee

The Disproportionate Minority Contact Committee was created by the Council to monitor, research, and make recommendations to address DMC. As part of the work of the DMC Committee, local workgroups are located in Sioux Falls, Rapid City, and Sisseton. The Committee as well as each local workgroup is in charge of the steps of the DMC process as follows:

- **Identify** the existence/extent of disproportionality through “between race” comparisons within jurisdictions and at specific decision points in the system;
- **Assess** data about DMC to target detailed studies by identifying points of needed intervention, and allocate resources for system interventions;
- **Intervene** to reduce DMC by assisting policymakers in choosing jurisdictions that should receive increased attention and intervention;
- **Evaluate** how DMC responds to policy initiatives and system interventions;
- **Monitor** trends in DMC within and across jurisdictions.

Identification

In Fiscal Year 2005, the Department of Corrections collected data on juvenile justice system activity for calendar year 2002 in order to identify baseline data, and to determine if a disproportionate number of minority youth were represented throughout the juvenile justice system. Consistent with Formula Grant Program requirements, South Dakota DMC strategies should target reducing overrepresentation for those minority populations that make up at least 1% of the total population by youth. In South Dakota, Black and Native American youth are the minority groups that meet the 1% rule. Based on the initial identification information, Black youth were found to be overrepresented at the stages of arrest, detention, and petition and Native American youth were found to be disproportionately represented at the stages of arrest, diversion, detention, petition, adjudication, probation, and secure placement.

DMC Assessment

In the second phase of the DMC Process, the Department of Corrections contracted with researchers from Mountain Plains Research to conduct an assessment of DMC in order to assist the Council in identifying interventions that can reduce the occurrence of DMC. As part of the assessment effort, the researchers organized twelve focus groups in four different South Dakota communities to gather pertinent information. The focus groups included youth in the juvenile justice system, parents, service providers, and juvenile justice practitioners.

DISPROPORTIONATE MINORITY CONTACT

The focus groups identified a number of factors they believe impact DMC in South Dakota. Information obtained during the assessment phase was used to guide the strategies and implementation of local DMC pilot projects to begin working towards the reduction of minority overrepresentation within the juvenile justice system.

DMC Interventions

Based on the review of DMC identification information and assessment results, the South Dakota DMC Committee developed strategies to be implemented as initial steps to addressing disproportionality. Based on the recommendations from the DMC Committee, the Council of Juvenile Services implemented strategies and programs as follows:

DMC Intervention Strategies		
DMC Project	Funding	Description
DMC Allocation	\$260,320	
<i>Statewide DMC Strategies</i>	\$32,000	DMC Committee; Statewide DMC Program Coordinator; and Statewide DMC Activities and Projects
<i>DMC Pilot Project - Minnehaha County</i>	\$89,440	Native American Outreach Program —A position that works with Native American children and their families upon the child’s entrance to the juvenile justice system to help the juvenile and the family understand the juvenile justice system; Parenting Skills —provide culturally appropriate parenting skills to minority parents to help prevent contact with the juvenile justice system and help them deal with issues relating to contact with law enforcement and state agencies; and Local DMC Advisory Group Coordination .
<i>DMC Pilot Project - Pennington County</i>	\$89,440	Middle School Prevention Specialists - Two positions that focus on providing services to minority youth—at Dakota and North Middle Schools—who are at risk of entering the juvenile justice system and providing them and their families with cultural opportunities, activities, and events; and Local DMC Advisory Group Coordination .
<i>DMC Pilot Project - Roberts County</i>	\$49,440	School Resource Officer - A position placed within the Sisseton school to deal with issues that arise on the grounds during school time, improve rapport, and provide justice related education; and Local DMC Advisory Group Coordination .

DISPROPORTIONATE MINORITY CONTACT

Through the Minnehaha County DMC Pilot Project, the Native American Outreach Program serves an average of 18 minority youth per month, while the Parenting Skills program serves an average of six. Through the Pennington County DMC Pilot Project, the Middle School Prevention Specialist serves an average of 36 minority youth per month. Project Respect, through the Roberts County DMC Pilot Project, serves an average of six minority youth per month while the School Resource Officer serves 28 per month. It should be noted that the Native American Outreach Program and Parenting Skills in Minnehaha County as well as Project Respect in Roberts County provide individualized or small group services, therefore numbers appear to be serving fewer juveniles with more intensive services. Programs that do not have individualized services focus on the number of contacts. In Pennington County this would include juveniles attending incentive programs, truant youth, youth with high disciplinary actions, and in-class prevention programming. In Roberts County, the school resource officer would include any school related law enforcement contacts and law education classes.

In addition to the three local pilot intervention projects, the Council of Juvenile Services approved the implementation of training DMC pilot sites to include Sioux Falls and Rapid City. The purpose of this program is to decrease the overrepresentation of Native American youth in South Dakota's juvenile justice system by developing and implementing effective Native American culture awareness training and agency cultural assessment training for juvenile justice practitioners and service providers. The DMC Cultural Training Workgroup has been formed and is comprised of Native American representatives, Council members, and individuals from Court Services, Juvenile Detention and Juvenile Corrections. Implementation of the training is anticipated to begin during calendar year 2010.

Current Status of DMC/Ongoing Monitoring

As a part of the DMC requirement, states are responsible for the ongoing monitoring of the juvenile justice system for overrepresentation of minority youth for any group that comprises at least 1% of a jurisdiction's juvenile population. States must develop a Relative Rate Index (RRI) using state-specific data to compare the rate of activity at a specific stage of the juvenile justice system (i.e. arrest, detention, adjudication, etc.) to the corresponding rate for White youth. Data pertaining to the ongoing monitoring is compiled from the different stages of the system to monitor RRI trends, evaluate progress, and to help guide strategies for addressing DMC.

DISPROPORTIONATE MINORITY CONTACT

The most recent data compiled for 2007 shows findings from stages showing the largest disparity for Native American youth to include:

- The arrest rate for Native American youth is 4.00 times higher than the arrest rate for White youth.
- The detention rate for Native American youth is 2.03 times higher than the detention rate for White youth.
- The petition filed rate for Native American youth is 1.09 times higher than the petition filed rate for White youth.
- The adjudication rate for Native American youth is 1.02 times higher than the adjudication rate for White youth (not statistically significant).
- The probation rate for Native American youth is 1.08 times higher than the probation rate for White youth.
- The DOC commitment rate for Native American youth is 1.73 times higher than the DOC commitment rate for White youth.

The most recent data compiled for 2007 shows findings from stages showing the largest disparity for Black youth to include:

- The arrest rate for Black youth is 2.02 times higher than the arrest rate for White youth.
- The detention rate for Black youth is 1.24 times higher than the detention rate for White youth.

DISPROPORTIONATE MINORITY CONTACT

- The petition filed rate for Black youth is 1.09 times higher than the petition filed rate for White youth.
- The adjudication rate for Black youth is lower than the adjudication rate for White youth.
- The probation rate for Black youth is lower than the probation rate for White youth (not statistically significant).
- The DOC commitment rate for Black youth is lower than the DOC commitment rate for White youth (not statistically significant).
- The probation rate for Black youth is lower than the probation rate for White youth (not statistically significant).
- The DOC commitment rate for Black youth is lower than the DOC commitment rate for White youth (not statistically significant).

Based on information collected since South Dakota’s renewed participation, Black and Native American youth continue to be overrepresented throughout South Dakota’s juvenile justice system with the greatest disparity occurring at the stage of arrest.

In order to create awareness about DMC, a variety of information dissemination products were established which included presentations, publications, press releases, and website enhancements.

CHILDREN IN NEED OF SUPERVISION

South Dakota Codified Law 1-15-30 requires the Council of Juvenile Services to make a special study of, and make an annual report to the Governor, the Unified Judicial System, and the Legislature concerning the appropriate administration of and provision for Children in Need of Supervision (CHINS) in this state. It is the intent of the Council of Juvenile Services that this document satisfies this reporting requirement.

A Child in Need in Supervision is defined in State law as follows:

26-8B-2. In this chapter and chapter 26-7A, the term, child in need of supervision, means:

- (1) Any child of compulsory school age who is habitually absent from school without legal excuse;*
- (2) Any child who has run away from home or is otherwise beyond the control of the child's parent, guardian, or custodian;*
- (3) Any child whose behavior or condition endangers the child's own welfare or the welfare of others;*
- (4) Any child who has violated any federal, state, or local law or regulation for which there is not a penalty of a criminal nature for an adult, except violations of subdivision 34-46- 2(2) (tobacco possession), or petty offenses; or*
- (5) Any child who has violated § 35-9-2 (alcohol possession) or 32-23-21 (zero tolerance DUI).*

If a CHINS petition is filed and the child is adjudicated, the most common disposition is probation. A Court Services Officer supervises CHINS on probation. If, in the opinion of the judge the youth needs out of home placement, the child is committed to the DOC until the child turns 21 unless discharged sooner by the DOC.

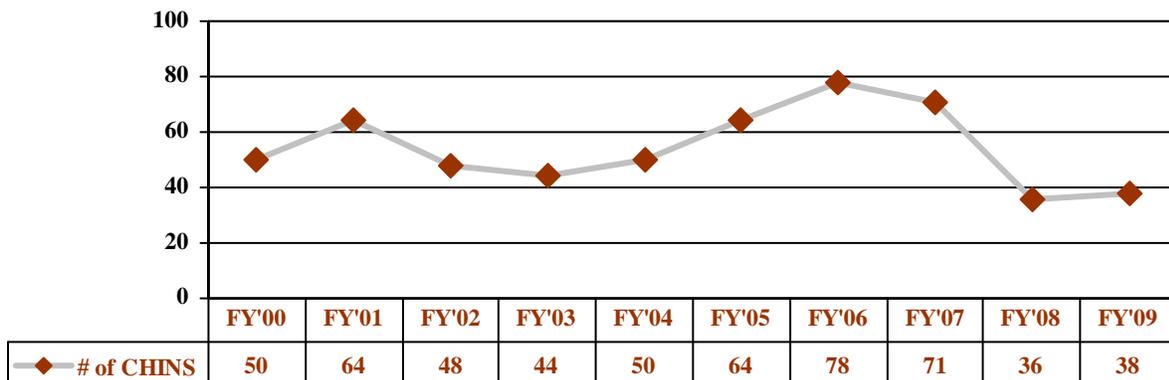

Concern has been expressed about whether commitment to the DOC is the appropriate manner in which to provide residential services to status offenders. Youth who are committed to the Department of Corrections as a Child in Need in Supervision are reviewed by an interagency team as required by SDCL 26-8B-6. The team includes representatives from the Department of Social Services, Department of Human Services, Department of Education, Unified Judicial System and the Department of Corrections. The CHINS Committee provides a written finding based on information provided by the Juvenile Corrections Agent regarding placement to include the least restrictive placement commensurate with the best interests of the child. Any youth being recommended for Intensive Residential Treatment (IRT) or a Psychiatric Residential Treatment Facility (PRTF) level of care are reviewed by the State Review Team in lieu of the CHINS committee.

CHILDREN IN NEED OF SUPERVISION

A key factor in determining appropriate services for youth is the utilization of a standardized instrument, the Youth Level of Services Case Management Inventory. This tool is used to assess the following areas: offense history, family circumstances/parenting, education/employment, peer relations, substance abuse, leisure/recreation, personality/behavior, and attitudes/orientation.

Concern has also been expressed whether status offenders and their families are receiving sufficient services to prevent out of home placement or appropriate services to reintegrate the youth into the community after placement.

The following information was obtained from the DOC and identifies CHINS commitments to the DOC during fiscal year 2000 through 2009:

The Council of Juvenile Services recognized the importance of service provisions to CHINS and addressed this issue in the 2006-2008 Three-Year Plan, and also in their most recent FY2009 Plan Update. In conjunction with the Unified Judicial System, the Council continued to fund the Probation Support Program in order to provide access to needed services for youth on probation supervision.

In previous fiscal years, the Council developed and funded the System Improvement Subgrant Program, which provided funding to focus on the status offenses of underage drinking, truancy, and a day treatment program for CHINS on probation. Two System Improvement programs that were funded, Connecting Point and Reconnecting Youth, are model programs for the State.

NATIVE AMERICAN PROGRAMS

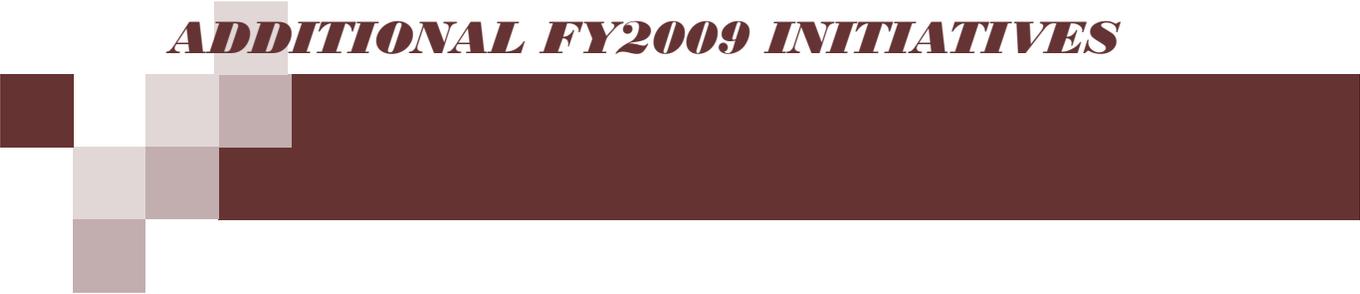

The Formula Grants Program requires participating states to pass on a specified portion of their funds to Native American Tribes who perform their own law enforcement. The amount that South Dakota is required to pass on in FY2009 is \$35,929. States may allocate additional funds beyond the minimum and may also provide funds to those Tribes who do not have law enforcement responsibilities but who conduct other juvenile justice functions.

The total amount allocated to the Native American Pass-Through program by the Council of Juvenile Services exceeds the minimum pass-through amount set by OJJDP. The Council allocated \$75,000 for FY09 in which all nine Tribes in South Dakota were eligible to apply.

The Native American Pass-Through grant process was initially implemented in Fiscal Year 2005. In Fiscal Year 2009, Tribes accessed their fifth year of funding. Supplemental grants were also made available in 2009 to Tribes on a competitive basis. The supplemental grant funds are Native American Pass-Through dollars not accessed by eligible Tribes. The following table shows the allocation amount for each of the Tribes who applied for funds and their planned use of funds:

TRIBE	GRANT	PROGRAM DESCRIPTION	AWARD
Cheyenne River Sioux Tribe	NAP Grant	Juvenile Probation Officer	\$25,304
Crow Creek Sioux Tribe	NAP Grant	Juvenile Probation Officer	\$30,000
Flandreau Santee Sioux Tribe	NAP Grant	Juvenile Probation Officer	\$22,500
Rosebud Sioux Tribe	NAP Grant	Juvenile Court Service Officer	\$8,059
Sisseton Wahpeton Oyate Tribe	NAP Grant	Juvenile Tracker/Probation Officer	\$22,500
Yankton Sioux Tribe	NAP Grant	Juvenile Tracker/Probation Officer	\$30,000
Cheyenne River Sioux Tribe	NAP Supplemental Grant	Juvenile Probation Officer	\$22,031
Crow Creek Sioux Tribe	NAP Supplemental Grant	Juvenile Probation Officer, Program Analyst	\$34,000
Flandreau Santee Sioux Tribe	NAP Supplemental Grant	Juvenile Probation Officer, Talking Circle Speakers	\$33,000
Sisseton Wahpeton Oyate Tribe	NAP Supplemental Grant	Juvenile Supervision Program	\$19,000
Yankton Sioux Tribe	NAP Supplemental Grant	Drug & Alcohol Counselor	\$15,000

ADDITIONAL FY2009 INITIATIVES

In addition to the aforementioned activities and projects, the Council also helped fund and/or support a number of projects and initiatives. A brief summary of those projects and initiatives is as follows:

*** Juvenile Justice Tribal Advisory Group**

The Juvenile Justice Tribal Advisory Group (TAG) provides Native American perspective and expertise to assist the Council of Juvenile Services in meeting the requirements of the Juvenile Justice and Delinquency Prevention Act and provides communication between the Tribes and Council to assist Tribes in their juvenile justice initiatives. The Council provides funding for TAG meetings.

*** Age of Compulsory School Attendance**

As the result of action taken by the 2007 Legislature, the compulsory age of school attendance increased from age 16 to 18 in 2009. The Council of Juvenile Services was in support of Senate Bill 199, the school age bill that passed in the 2007 Legislature. In addition to supporting this important legislation, the Council funded and convened a juvenile justice symposium designed to offer practical assistance to educators and the range of professionals who work with at-risk youth and to help form community partnerships to keep kids in school. The symposium was titled “Community Partnerships That Keep Kids In School”.

*** Centralized Intake**

The Unified Judicial System began a pilot of the Centralized Intake System (CIS) designed to significantly assist with obtaining statewide data for compliance monitoring purposes. The Council subgranted funds to the Minnehaha County Juvenile Detention Center for an intake officer to assist with testing and implementing the Centralized Intake System. The Council intended to continue making annual funding available to staff up to two intake sites to assist with the implementation of the system. However, the CIS is no longer a statewide system, so the CJS formulated a CIS subcommittee to review the progress and future plans of the system; and to ultimately make recommendations to the CJS regarding future funding. The UJS Centralized Intake System was discontinued in FY2009.
