1. General Operations

- A. The institutional vocational educational programs depend upon 'live' work projects for teaching and training purposes. All projects and/or services performed in vocational classes will be conducted on a fee basis unless made exempt by the Warden or designee. Priority for projects will be given to government and non-profit agencies.
 1. All work projects whether for government, non-profit agencies, or other parties, must have the approval of the Production Manager or Associate Warden.

2. Project Requests:

- A. All project requests will be submitted to the Production Manager for consideration. The Production Manager will consult with the appropriate shop foreman for consideration of the project.
 1. Approval for private or employee projects may only be granted when there are no government, non-profit, or state projects pending, or if the project is necessary for the completion of a required vocational curriculum.
 2. The customer submitting the project request will be notified of the approval or denial of the project request. If approved, the customer will be given an estimated quote for the project.
