

1.5.C.2 Inmate Wellness

I Policy Index:

Date Signed: 05/01/2020
Distribution: Public
Replaces Policy: N/A
Supersedes Policy Dated: 05/30/2019
Affected Units: All Institutions
Effective Date: 05/01/2020
Scheduled Revision Date: April 2021
Revision Number: 17
Office of Primary Responsibility: DOC Administration

II Policy:

The Department of Corrections (DOC) shall provide all inmates the opportunity to access nutritional meals. Inmates will be afforded the opportunity for recreation and leisure activity on a regular basis. Inmates are encouraged to engage in some form of regular physical exercise.

III Definitions:

Inmate:

Any person sentenced or placed in a facility or program under the control of the Department of Corrections.

IV Procedure(s):

1. Nutrition:

- A. All inmates will be afforded the opportunity to access three nutritional meals a day, seven days a week (ACA 4-4328).
- B. Dietary allowances will be reviewed and documented at least annually by a qualified nutritionist or registered dietician (ACA 4-4316). In addition to the food services nutritionist, the DOC shall contract with an independent nutritional and foodservice consulting service to review and evaluate dietary allowances established for inmates.
 1. Inmates will be provided a balanced diet based on the United States Department of Agriculture and the Department of Human Services' Food Guide Pyramid. Meals will meet or exceed the recommended daily allowances, including the four (4) basic food groups, and will be appropriate for the age, gender and activity level of the inmates (ACA 4-4316).
- C. Special medical/therapeutic diets may be ordered by a physician, physician assistant, nurse practitioner, or dentist and shall conform as closely as possible to the foods served to other inmates (ACA 4-4318) (See DOH policy P-D-05 -[Medical Diets](#) and DOC policy 1.5.F.2 [Inmate Religious and Alternative Diets](#)).
- D. Inmates may request a religious or alternate diet by completing a *Request for Religious or Alternate Diet* form and submitting this to their respective cultural activities coordinator (See DOC policy 1.5.F.2 [Inmate Religious and Alternative Diets](#)).
- E. Inmates who access commissary to purchase food, remain responsible for maintaining a healthy diet and following any prescribed medical/therapeutic diet

- F. Regular meals will not be withheld, nor will the standard menu be varied as a disciplinary sanction. Inmates will not be denied access to nutritionally adequate diets as a means of modifying behavior. Access to food items available through commissary may be withheld or limited as a disciplinary sanction or in response to inmate behaviors or conditions.
- G. Food services staff must plan menus in advance (typically at least a month) and substantially follow the approved planned menus (ACA 4-4317). The nutritionist, dietician or other approved designee must be notified of any substantial changes in the menu by the food service supervisor, preferably in advance of the substitution. If advance notification is not possible, notice shall be provided within the same week as the substitution/change occurred. Any substitutions in meals should be noted by the food service supervisor and shall be of equal or greater nutritional value (ACA 4-4317).
- H. Menus will be evaluated on a regular basis by a designated institutional committee, that will take into consideration the flavor, texture, temperature, appearance and palatability of the food items. The committee will take into consideration inmate eating preferences and diversity of the inmate population.
- I. The independent nutritional and foodservice consulting service will review and evaluate menus and the food service program as a whole, including conducting nutritional analysis of meals and therapeutic/medical diets.
- J. The independent nutritional and foodservice consulting service will observe tray line/meal service, diet trays, portion sizes, general sanitation, food storage, inventory items and other items necessary to properly evaluate food services.
- K. Meal evaluations should be conducted at least quarterly by the committee. Staff shall verify adherence to the set menu and established basic serving sizes (ACA 4-4316).
- L. Food service staff planning and preparing meals will take into consideration food flavor, texture, temperature, appearance and palatability (ACA 4-4317).

2. Recreation:

- A. All inmates will be provided access to indoor and/or outdoor recreation or leisure areas at least one hour each day (ACA 4-4154), with the following exceptions:
 - 1. The inmate's involvement in recreation would pose an immediate threat to the safety and security of the facility.
 - 2. A medical order exists stating an inmate should not participate in recreation activities or should limit activity. The inmate may sign a medical refusal if they choose to participate in recreation activities or exercise in manner that conflicts with the medical order.
 - 3. Inmates placed in Restricted Housing or other restricted status should be offered recreation/exercise each day outside their cells, at least five days per week, unless security or safety reasons dictate otherwise (ACA 4-4270).
 - 4. When conditions make it unsafe for inmates to be offered recreation activities.
- B. In addition to the procedures set forth within this policy, each institution may establish written rules, guidelines and/or operational memorandums relating to inmate recreation, indoor/outdoor activity and leisure-time activities.
 - 1. Designated staff are responsible for the procurement, inventory, replacement and repair of recreational/leisure-time equipment and supplies.

2. Each facility will establish provisions and procedures for adequate staff supervision of inmates participating in recreation, exercise, leisure-time activities to preserve and ensure the safety and security of the institution, staff and inmates.
3. Inmates will participate in recreation/leisure activities at their own risk. Participation in such activity is strictly voluntary.
