### METAL SHOP SPOTLIGHT

It goes without saying for our Metal Shop, as with every Pheasantland shop, that quality and service are paramount. With a wide range of knowledge and experience there is no challenge our team of skilled welders and fabricators cannot handle. And if it's made of metal they can build or repair it and ensure that every project meets and exceeds your expectations.

**SD Sheriffs & Chiefs Conference**  
Deadwood

### Meet the Metal Shop Foreman

Chris Avery is a familiar face around our Sioux Falls campus, coming to Pheasantland from the security side of corrections. A veteran of the U.S. Marine Corps, Chris also brings metal fabrication experience and has been known to throw on a welding hood to join his team on a project. Feel free to contact Chris and he will be more than happy to discuss how the Metal Shop can help you with a new project or to schedule equipment repair or maintenance.
