WELCOME ABOARD

Tonya, Melissa, and Mercy are our newest faces of PI!

Tonya Schrank
Upholstery Shop Foreman

“ I am excited to work for P.I. and learn all the aspects of upholstery business. I have already seen the before and after of projects and am proud of how much these men put into their work. What P.I. does for these offenders, is a great program and I hope I can make a difference too. ”

Magnet

“ I am excited to join the Pheasantland Industries team because I believe in what they stand for; their quality products, budget friendly pricing and creating job opportunities for inmates and getting them ready to join the workforce when they leave. Creating a quality product and helping customers save money in the process, is a win for all. ”

Mercy Oyadare
PI Marketing Intern

“ As a sophomore Criminal Justice and Media Studies student at the University of Sioux Falls, I'm thrilled to intern with P.I. because there are wonderful learning opportunities and unique experiences I cannot get anywhere else. This environment allows for a creative output and benefits both me and the inmates who are putting in an effort for rehabilitation. There is something new to learn every day and that is just another reason that keeps me interested in what I do. ”
