Back to School

Now that school has started back, please consider the shops of Pheasantland Industries for any upcoming projects or supply needs. Our designers and fabricators can walk you through the planning process for a new project or breathe new life into any old furniture or athletic equipment laying around.

From promotional products to educational aids, Pheasantland stands behind its "Satisfaction Guaranteed" Promise.

Hail & Farewell

In recent weeks, there have been some changes to the Pheasantland Family. **Christian Castro**, our summer marketing intern, has returned to school to complete his coursework and we already miss his creative contributions here at the PI office!

Over at the Braille and Upholstery shops we welcome back **James Elledge**, whom you may remember from his days at the Sign Shop. James has taken over from **Bill Allen**, who has returned to the security side of corrections and we wish them both well.
