I Policy:

The Department of Corrections (DOC) shall establish guidelines and procedures for the screening and testing of staff for tuberculosis and the management and control of potential exposure of staff and inmates to tuberculosis to reduce the risk of tuberculosis being introduced or spread from one person to another.

II Definitions:

**Significant Direct Contact:**
Contact is defined as the duration of time a staff member spends in proximity with inmates housed in a DOC facility. Significant direct contact is contact between staff and inmates that is within 6 feet and involves at least twelve (12) hours of contact with inmates within a continuous twelve month period.

**Staff Member:**
For the purposes of this policy, a staff member is any person employed by the DOC, full or part time, including an individual under contract assigned to the DOC, an employee of another State agency assigned to the DOC, authorized volunteers and student interns.

**Tuberculosis disease (active TB):**
A bacterial infection usually affecting the lungs and possibly other sites, caused by Mycobacterium Tuberculosis (TB). Only TB of the larynx and lungs is considered infectious. TB is spread from one person to another when TB bacteria are put into the air by the infected person. This can occur when the infected person coughs, sneezes, speaks or sings. People nearby may breathe in these bacteria and become infected.

III Procedure:

1. **Required Testing:**
   
   A. All new staff members whose assigned job duties require significant direct contact with inmates housed in a DOC facility are **required** to have an initial tuberculin skin test administered by DOC Health Service staff within 2 weeks of hire, unless they have previously tested positive and already been treated (ACA 4-4386) to rule out initial infection of TB.
1. New hire staff members required to receive the TB test will receive a two-step TB test, unless they have medical documentation showing the negative results of an approved provider administered TB test within the last calendar year.

   a. The first TB test will be read forty-eight (48) to seventy-two (72) hours after administration by Health Service staff.

   b. The second TB test will take place one to three (1-3) weeks after the first test and will be read forty-eight (48) to seventy-two (72) hours after administration by Health Service staff.

B. New hire staff members required to receive the TB test will be asked if they have a family history of TB or previously diagnosed with TB.

C. New hire staff members will be instructed on the procedure to report any possible exposure to TB to their supervisors.

D. Staff previously not required to submit to TB testing, whose level of contact with inmates has changed and currently meets the definition of significant direct contact, are required to contact Health Service staff to arrange a two-step TB test. Supervisors are responsible for ensuring staff compliance with the requirements set forth in this policy.

E. Any DOC staff member not required by policy to receive an annual TB test (does not have significant direct contact with inmates housed in a DOC facility,) may request to receive TB testing and/or screening by contacting their Bureau of Human Resources (BHR) representative or their direct supervisor.

2. Administering the Two-step TB test:

A. Health Services staff will administer TB tests to all new hire DOC staff identified for the required TB testing who are assigned to a facility housing DOC inmates.

   1. New staff members assigned to community corrections (Parole Services and Division of Juvenile Services), may receive the two-step TB test from local Community Health Care Centers, or DOH staff when permissible. The annual symptom screening must be completed by Health Service staff.

B. TB testing will be administered at no cost to the staff member, unless the staff member chooses to receive TB testing through a source other than a Community Health Care Center or DOH staff.

   1. Staff may choose to receive the two-step TB test through another source (i.e. private doctor, military); however, the staff member may be held responsible for all expenses associated with the testing.

   2. Staff completing the two-step TB test testing through another source must provide Health Services with documentation of the required test(s) and results of the testing.

3. Annual TB Screening:

A. Staff having significant direct contact with DOC offenders, is required to receive annual symptom screening. The screening will be performed by DOH staff.
B. Bureau of Human Resources (BHR) staff will provide staff assigned to a DOC facility housing inmates and Community Corrections staff with the annual screening form.

1. The screening form will be provided to the staff member on or about their anniversary hire date (community corrections staff) or during annual in-service training (institutional staff).

2. The staff member will complete the screening form and return this to Health Service staff, which will review the screening form and determine if any medical actions/testing is required.

3. Health Service staff will return the screening form to the staff member, who is responsible for returning the form to BHR staff.

4. Staff members required to receive the annual symptom screening is allowed a one (1) month “grace period” from the date they are provided notice to complete the required symptom screening and their return of the required form to BHR staff.

4. Exposure to Tuberculosis:

A. When a staff member has reason to believe they have been, or may have been, exposed to an offender with active TB, either in the community or a DOC facility, the staff member will immediately complete an Incident Report and contact their supervisor to inform them of the possible exposure.

1. The staff member will be offered a TB test in ten to twelve (10-12) weeks following the exposure/suspected exposure, as recommended by Health Services and the Centers for Disease Control (CDC).

B. If exposure is confirmed through a positive TB test, the staff member will report the positive test to their supervisor. Containment procedures and isolation will be initiated by the DOC. “Isolation” means the separation of ill persons who have a communicable disease from those who are healthy, and the restriction of their movement to stop the spread of that disease or illness. Health Service staff will offer counseling to staff member.

C. Staff who completes TB testing following exposure to an offender known to have active TB, who test positive for TB, will complete a Report of Accident, Incident or Unsafe Condition (See Attachment 2). The report will be submitted to their supervisor and Office of Risk Management. All confirmed occupational exposures shall be reported to the Secretary of Corrections, in accordance with DOC policy 1.1.A.3 Reporting Information to DOC Administration.

5. Positive TB Test Results:

A. If a staff member tests positive for TB, the results will be recorded by Health Services staff. BHR staff will be notified.

B. Staff who test positive for TB, who have not completed the recommended treatment, will be referred to their primary care provider by Health Service. BHR staff will be notified by Health Services staff that the staff member is required to provide documentation of TB treatment.

C. All staff members with a new positive TB test result are required to complete the Employee Tuberculin Screening form and receive a medical exam, including a chest x-ray from their primary care provider, unless the staff member’s primary care provider provides written
documentation to Health Services stating the staff member does not have TB and can confirm the staff member has had a chest x-ray completed.

D. Health Service staff will complete the following when a staff has a new positive test for TB:

1. Provide the staff member with TB education information from the CDC.

2. Provide the staff member with a copy of the TB form and contact information for the Correctional Health Director.

3. Advise the staff member to follow-up with their primary care provider. Urgent follow-up for those with symptoms, within 30 days for those with no symptoms.

4. Inform BHR staff of the documentation requirements for the staff member.

Note: Health Services staff is required to notify the SD State Health Department TB Control if one of the following risk factors is present:

1. Foreign-born persons who entered the U.S. within the last 5 years.
3. Immunosuppressive therapies (i.e. high dose therapies)
4. Radiographic evidence of prior TB
5. HIV infection
6. Renal dialysis
7. Silicosis
8. Organ transplant
9. Head and neck cancers
10. Leukemia
11. Hodgkin’s disease
12. Diabetes
13. Close contacts (defined as confirmed exposure to an infectious TB case in the last 12 months. The TB source case name must be reported.

E. Symptoms of TB disease include:

- A bad cough that lasts 3 weeks or longer
- Pain in the chest
- Coughing up blood or sputum
- Weakness or fatigue
- Weight loss
- No appetite
- Fever
- Sweating at night

1. It is the staff member’s responsibility to complete any recommended treatment, procedures and follow-up care, as prescribed by their primary care provider or Health Service staff, and provide copies of any required documentation to Health Service staff and/or the BHR.

2. Staff, who has completed the recommended treatment, must provide a copy of their blue card issued by the Department of Health or a copy of their medical records showing they have completed all recommended treatment to Health Services and are cleared by their physician to work.
a. Documentation will include confirmation the staff member was evaluated by a licensed medical professional and whether the staff member is, or is not, infectious with TB, including a description of the rationale supporting the conclusion.

3. Health Service staff will annually confirm with staff members who have had a positive result in the past that they have no symptoms consistent with active TB through the Employee Tuberculin Screening form, chest x-ray or other approved screening methods. Health Service staff will notify the BHR if there are changes in the staff member’s condition which necessitates the staff member be excluded from work activities within a DOC facility. Symptomatic staff will be required to receive a thorough medical evaluation prior to resuming work activities within a DOC facility or being granted access to a DOC facility.

4. Staff health records are considered confidential and will be protected from unauthorized release in accordance with state and federal law.

F. Staff having symptoms consistent with active/infectious TB will be excluded from working in DOC facilities housing inmates, or on facility grounds where inmates are present, or from having direct contact with inmates or staff, until a medical practitioner certifies the staff person is free from infectious TB.

G. Staff is required to complete all prescribed treatment regimen for TB and submit a physician’s statement indicating he/she is not infectious and cleared to return to work to Health Services staff before being eligible to resume work activities within a DOC facility, on facility grounds where inmates are present, or having direct contact with inmates or staff.

H. Costs for required counseling, testing, treatment and medical care incurred as a result of occupational exposure to TB, may be eligible for coverage, compensation or reimbursement.

I. Costs associated with counseling, testing, treatment and medical care incurred by a staff member as a result of a non-work related exposure (not occupational exposure) to TB, or a pre-existing condition, may not be eligible for coverage, compensation or reimbursement. This includes new staff hires whose initial TB test shows a positive result.

J. Staff who fails to complete the required testing procedures, fails to comply with the prescribed treatment regimen, or refuse to provide medical information as requested and required, will not be allowed access to DOC facilities housing inmates.

K. Because of the extreme health concerns posed by TB, non-compliance by staff with testing, screening, treatment and prevention protocols/procedures as ordered/required pursuant to this policy and/or the DOC or who fail to disclose they have or may have active TB, may result in disciplinary action, including and up to termination of employment.

IV Related Directives:
DOC policy 1.1.A.3 -- Reporting Information to DOC Administration

V Revision Log:
March 2002: Revised section B under Positive Test Results Deleted references to Sioux Valley Hospital. Revised Custer section on Attachment 1.
December 2003: Revised the policy statement. Rearranged policy sections and some information within the policy sections. Changed South Dakota Department of Health infection control to South Dakota Department of Health Tuberculosis Control Program TB Treatment Regulations.
August 2004: Revised the wording on annual TB testing to allow for a one (1) month grace period.
January 2006: Revised the definition of employee. Added reference to DOH policy Y-B-01.

Clarified that if a TB test is done through a non-state source the results of the test must also be provided.

January 2007: Revised the policy statement. Changed the definition of Employee to Direct Care Employee. Added a definition for offender.

December 2007: No changes made.

November 2008: Revised formatting of policy and attachment in accordance with DOC policy 1.1. A.2. Added definition of other employee and whole blood assay test. Added statement regarding documentation of TB test must be within past year and TB test must be completed within first month of employment of ss (A1), deleted new in reference to other employees in ss (B1, B1b and B1c) and added ss (B1a and B3a) of TB Tests for New Employees. Added new ss (A, B, B1, B2 and C), revised ss (D) to include other employees and TB Test Declination, revised ss (E) to include all employees vs direct care employees and added Employee Tuberculin Screening and chest x-ray per this policy, replaced direct care employee with any in ss (F), deleted former ss (D and E) regarding other employee having their annual TB tests and revised bullets for entire Annual TB Testing. Added prior approval of the CEO in ss (B of Administering TB Tests. Deleted former Attachment 2 regarding procedures for positive PPD Test, replaced chest x-ray with Employee Tuberculin Screen and added reference to green card in ss (B), added ss (C), added statement regarding cost of medical appointment in ss (C2), deleted green card in ss (C3) and added reference to the Employee Tuberculin Screening in ss (C4) of Positive TB Test Results. Added phrase regarding testing positive in the past and replaced chest x-ray with annual screening in ss (B), revised wording in ss (B) and added Note regarding reporting positive TB tests to DOH, added ss (C and D), deleted each year in ss (C1), deleted blue card in ss (C3) and added statement regarding screening or chest x-ray if indicated by screening in ss (C4) of Positive TB Test Results. Deleted reference to SD DOH Tuberculosis Control Program TB Treatment Regulations throughout policy. Revised wording and formatting throughout policy. Added new Attachment 2 and deleted former Attachment 2 from policy.

Revised numbering of attachments throughout policy.

November 2009: Replaced on with reference to one month within ss (C) and added reference to BOP emailing staff that have access to email of their annual TB test in ss (D) both within Annual TB Testing. Added hyperlinks.

November 2010: Revised formatting of Section I Replaced “regular volunteers” with “Level One Volunteers” in the definition of Direct Care Employee Added definition of Level One Volunteers. Revised Attachment 1 to include still an employee for TB testing.

January 2012: Deleted “Non-Public” and Replaced with “Public”.

December 2012: Added A-D and changed previous A. to E. and Deleted B. “Also refer to DOH policies PB 01 and YB 01 for additional environmental procedures in Section 3. Added “direct care” to Section 4 B. 2 Added Attachment 3, 4, and 5.

October 2013: Deleted definition of “Direct Care Employee”, “Other Employee” and “Level One Volunteer” and Added definition of “Staff member” Added “Health Service staff” to Section 1 A. 1. A. and B. Deleted B. and B. 1. a-c and B. 2. a-b and B. 3. a. Renumbered previous C. to B. and D. to C in Section 3. Deleted term “employee” and Replaced with “staff member” throughout policy.

Deleted B. “All other employees, except those who signed a one time TB Test Declination are required to have a TB test administered annually on their anniversary date” in Section 2.

Renumbered sections that followed. Deleted “assigned to the DOC will be responsible for completing” and Replaced with “should review” and Added “after the staff member has completed this” to Section 2 C. Deleted “month” and Replaced with “week” and Deleted “their anniversary date of hire” and Replaced with “any positive test results” in Section 2 D. Deleted “Parole and Juvenile Corrections Agents, supervisors” and Replaced with “Designated DOC supervisors” in Section 2 H. Deleted A. B. C and D. in Section 3 reference blood borne exposure Renumbered E. to A. in Section 3 Added B. to Section 3. Added “or suspected of possibly being exposed to an offender with an active case of TB” to Section 3 A. Deleted “Direct care employees” and Replaced with “Staff completing TB testing through another source” and Deleted “DOC” and Replaced with “Health Services” in Section 4 B. 2 Deleted “report all positive TB tests to the SD DOH. The DOH

Revised: 11/14/2017
will issue the employee a green card” and Replaced with “The SD Health Department TB Control if one of the following risk factors is present” in Section 5 C. Added 1-11 in Section 5 C. Added “within 7 days” in Section 5 D. Deleted “either covered by the Centers for Disease Control or” and Replaced with “will be paid by the DOC in Section 5 G. Deleted Attachments 1, 3 and 4.

November 2015: Added “The DOC shall establish guidelines for the management/control and reduction of risk of TB in its facilities through ongoing testing of offenders and staff” in the Policy Statement. Added definition of TB. Added definition of “Significant Direct Contact” Added “whose normal job duties require significant direct contact with offenders housed in a DOC facility” and Deleted “contact within the first week of employment” and Replaced with “at no cost to them within 2 weeks of hire and before having direct contact with DOC offenders” in Section 1 A. Added “medical” “negative” and “provider administered” in Section 1 A. Added definition of TB. Added “Significant Direct Contact” and Added “within 7 days” in Section 5 D. Deleted 3 in 1. A. Added “will receive the test at least annually, usually on or about their anniversary date of hire” and Added “documenting staff compliance and notifying staff of their annual test requirements” and Added “The frequency of TB testing will be determined by Health Services and/or CDC recommendations and standards” and Added “Health Service staff will notify BHR of the staff member’s compliance with the testing. BHR will maintain a record of staff testing results/compliance which shall be made available to the DOC upon request” in Section 2 A. Added “through contact with an offender” and Added “either in a DOC facility or through contact with an offender in the community” and Added “will immediately contact their supervisor” and Added “or as recommended by HS staff and the CDC” in Section 3 A. Added B. to Section 3. Deleted “exposure/suspected exposure” and Replaced with “confirmed exposure” in Section 3 C. Added “not approved or authorized by the DOC” in Section 4 B. Deleted “in the past” in Section 5 B. Added “medical exam” in Section 5 C. and D. Added list of symptoms in Section 5 D. Added “DOC Health Service staff will notify the BHR if there are changes in the staff member’s condition which necessitates they be excluded from work activities within a DOC facility” in Section 5 D. 4. Added 6. to Section 5 D. Added “DOC Health Services does not provide treatment to staff members” in Section 5 E. Deleted “positive test result and an affirmative check e-ray will not be allowed to work” Added new G. and H. and Deleted “staff that have tested positive for TB will not be tested again by the DOC unless otherwise recommended by a physician or SD State Health Department TB Control” in Section 5. Added J and K. to Section 5.

June 2016: Added G. to Section 2.

July 2016: Deleted “required to receive TB testing will be tested at least annually” and Replaced with “annual symptom screening. The screening will be performed by DOH staff.” and Deleted “BHR will maintain a record of staff testing results and compliance, which shall be made available to the DOC upon request. The frequency of TB testing will be determined by Health Services and based on the Center for Disease Control recommendations and standards” in Section 2 A. Deleted B, C. D. and F. in Section 2. Moved G. in Section 2 to E. in Section 1.

July 2016: Added 1-4 in Section 3 B. Reorganized sections.

November 2017: Added “screening and testing of staff for tuberculosis (TB) and” and Added “from one person to another” and Deleted “within its facilities through ongoing testing of inmates and staff” from the policy statement. Added “unless they have previously tested positive and already been treated” in Section 1 A. Added (community corrections staff) or during annual in-service training (institutional staff) in Section 3 B. 1. Added “who fail to disclose they have or may have active TB” in Section 5 K.
Attachment 1: Employee Tuberculin Screening

This form is provided by South Dakota Department of Health.
Attachment 2: Report of Accident, Incident, or Unsafe Condition

The *Report of Accident, Incident, or Unsafe Condition* form is located on Risk Management’s website.

A copy of the *Report of Accident, Incident, or Unsafe Condition* may be printed as follows:

1. Click [here](http://orm.sd.gov/documents/AccidentIncidentUnsafeConditionfill.pdf) to access the *Report of Accident, Incident, or Unsafe Condition*
   a. Placing mouse on the word “here” above
   b. Press and hold the “Ctrl” key on the keyboard
   c. Click the left button of mouse.

2. Or go to [http://orm.sd.gov/documents/AccidentIncidentUnsafeConditionfill.pdf](http://orm.sd.gov/documents/AccidentIncidentUnsafeConditionfill.pdf) to access the *Report of Accident, Incident, or Unsafe Condition*.
