January 12, 2010

Dear Governor Rounds and Members of the 2010 Legislature,

Pursuant to the SDCL 24-7-37, Pheasantland Industries has published its Annual Report for Fiscal Year 2009. This report provides a general overview of Pheasantland Industries as well as summaries of activities and notable production numbers for the year. The complete report is accessible for your viewing on the world-wide web at <http://doc.sd.gov/about/publications/>. If you would like a printed copy of the complete report please let me know and I will happy to have one delivered to you.

Pheasantland Industries recorded a net loss of \$(883,267) on sales of \$2,547,571 for Fiscal Year 2009. This loss is a result of a \$1,000,000 transfer to the state general fund. Profits from Pheasantland Industries are typically used to fund programs and services designed to enhance inmates' ability to lead productive lives upon their release from prison.

Our focus continues to be on developing a solid work ethic, enhancing inmates' opportunities for employment upon their release from prison and on producing high quality goods and services for South Dakota governmental entities, federal agencies and nonprofit organizations.

Sincerely,

Tim Reisch
Secretary of Corrections

Mission

To provide products and services to South Dakota governmental entities, federal agencies, non-profit organization and state employees. To provide work opportunities for inmates, preparing them for successful return to their communities.

Unique Employment

Industries in a prison environment operate differently than businesses in a free society. Strict security procedures and scheduling are set by prison officials. Industry shops operate Monday through Friday from 7:30 a.m. to 3:30 p.m. Inmate count procedures and staff scheduling usually prohibit overtime and weekend work.

Inmates in traditional prison industries earn \$.25 per hour. Federal law requires that inmates working for private industry must be paid prevailing, local market wages for the type of work performed. Inmates typically use their wages to buy toiletries and foodstuffs. A percentage is also retained in an inmate worker's savings account for use upon release or parole. Payroll deductions for inmates working at private industry jobs include, but are not limited to, social security, federal income taxes, incarceration fees, victim compensation and family support.

At the close of Fiscal Year 2009, the Pheasantland Industries Staff consisted of 15 FTE. The work force totaled 258 inmates in traditional industries and 21 inmates in private sector industries.

Outlook for FY2010

Pheasantland Industries will continue to look for new industries that will provide more opportunity for inmate employment. As always, we will not expand to any industry that would be in direct competition with the local private sector.

Traditional Industries

In Fiscal Year 2009, traditional prison industries consisted of 12 industries: upholstery, printing, sign, decal, bookbinding, Braille unit/tactile graphics, license plates, cabinet and custom furniture, garments/screen printing, data entry, wheelchair refurbishing and stocking hat knitting.

All traditional industries operate at the State Penitentiary in Sioux Falls, except the garment and screen print shops which are located at the Mike Durfee State Prison in Springfield and the data entry and scanning project which is located at the Women's Prison in Pierre. Prison industry shops are designed to meet standards established by the Occupational Safety and Health Administration. They are also inspected annually by the State Fire Marshal and Risk Management and must meet all standards established by those offices.

By policy, traditional prison industries can provide work only for government agencies, non-profit organizations and employees of the State of South Dakota.

Private Industry Enhancement

As the inmate population of adult corrections system grows, so does the need to provide more work opportunities for inmates. Traditional industries also have a very limited market in which to sell its goods. These two facts prompted the decision to explore private sector industry possibilities.

In June of 1989, the Department of Corrections applied for certification in the Private Sector/Prison Industries Enhancement Program. This application was forwarded to the United States Bureau of Justice Assistance after the South Dakota Legislature passed legislation permitting private sector involvement in prison industries. South Dakota was granted certification in 1990.

In addition to the State's certification, each private sector enterprise must be approved by the federal government. The application for each enterprise must include the enterprise market, the number of inmates to be employed, the wages to be paid, and verification that the venture will not impact the local market.

FY 2009 Activities

Inmate wages paid in the private sector for FY 2009 was \$583,376. Inmates employed in these industries paid \$35,005 to the South Dakota Crime Victims' Compensation Fund, \$174,923 for incarceration costs, \$35,005 in family support obligation, \$41,407 in federal taxes, and \$44,628 in social security.

Private sector businesses operating during FY2009 included Metalcraft Industries, which has welding and machine tool operations at the Jameson Annex and a window component assembly line at the Penitentiary. Because Metalcraft Industries is a Prison Industries Enhanced Program they must pay their inmate employee's wages that are comparable to local industry.
