I was going to make some comment about it being hot enough for you, but I just can't make light of the current weather and the effects its had on the crops, livestock, and lawns. This is extremely important for older adults and young folks who aren't thinking about proper hydration, so please, with it being this hot, please keep in mind to hydrate and then hydrate again, you can't be too careful. Speaking of hot, check out our "HOT" deals 24/7/365 at Pheasantland Industries. Let us do the sweating for you!

Before and After

Rebind and Save

This year we had just over a thousand school books recovered! So what does rebinding all entail? New covers, new bindings, (sewn not just glued whenever possible) and the edges trimmed for only \$16.

Bind your Bulletins

Many churches like to save their weekly bulletins and have them bound into a book at the end of the year. If your church would like to do this, talk with Derek in the Bookbindery. He can offer some helpful hints on what kind of margins you can use to help make the books a more useful article for your church.
