Newsletter
July 2010

Summer in the Book Bindery is dedicated to text books. We have nearly 800 volumes already on site and have room for a few more. The farther we go in the summer, the harder it will be to have them completed by the first day of school, but we will try. Hopefully these pictures will demonstrate the transformation of old "worn and torn books" to "better than new looking books". These books have been hand sewn and their workmanship and beauty are guaranteed.

Before

After

Ready to go back to school!

One of the podiums above was refinished, one was a major refurbish, and one was built from scratch. See if you can tell which is which.

Just completed this month is this beautiful chapel set. When it arrived it was the color of the Alpha/Omega inscription that remains on the front. The original beauty has returned.

There is no limit to the size or the location where Sign Shop signs can be displayed. Road signs, vehicle signs, window signs, or business signs are all possible.

Last month's miracle waiting to happen has made it's transformations. Last months pile of used lumber turned into between 100-150 toys now waiting to be stained and lacquered. Click on the picture of the lumber pile to see the miracle.

Our quality is the highest and your satisfaction is guaranteed.
