

Director's Desk

by Owen Spurrell, Director

Tell us what you need!

A little boy standing at the arm of his Dad's easy chair was talking to his Dad while his father read the paper. Finally the boy stopped talking and asked his Dad, "Would you listen to me with your eyes?" Even though there are pages of products that are made by Pheasantland Industries, they really don't do you any good if they aren't what you need. We want to listen to our customers with our eyes! You will have our full attention if you give us a call and tell us about a project you are working on or a product you can't find. If we can't do it, we will tell you, but hopefully we will find a way of working together to get what you need at a reasonable cost. Give us a try and be assured you will be listened to with our eyes!
